

Empowering your Fleet's Navigation through Maritime Intelligence

Tailored Solutions by Orbyt Global:

Hybrid Connectivity, e-Navigation, Environmental & Digital Operation Solutions, Total Bridge Maintenance & Equipment

Structure

Benefits of your company by Partnering with Orbyt Global Group

One Account for All Services

- ✓ Unified management of connectivity, navigation & digital systems
- ✓ Simplified billing and administration
- ✓ Cost Optimization through total bridge solutions

Exceptional Unified Support

- ✓ Single point of contact for all technical & operational needs
- ✓ Streamlined communication and faster response times

Centralized Platform Control

- ✓ One interface for full fleet visibility and real-time data
- ✓ Integrated ship-to-shore communications and bridge systems
- ✓ Supports crew welfare, IoT, and digital applications

Operational Excellence

- ✓ Improved efficiency, reliability & decision-making
- ✓ Scalable and future-proof digital infrastructure

This integrated approach ensures smoother operations, faster decision-making, and enhanced crew satisfaction, reinforcing your company's commitment to innovation and operational excellence in modern shipping.

General Information

Orbyt Global Group is a world-leading maritime technology company, headquartered in Piraeus, Greece, with a strong international presence. Established in 2021, the Group specializes in integrated satellite connectivity, navigation, digital solutions, and marine electronics for the global shipping industry. Its rapidly expanding portfolio includes renowned entities such as OTESAT-Maritel, Telenor Sweden (formerly Satpoint), OCEANIX International, and Orbyt-FMC Global. Following strategic acquisitions and partnerships, Orbyt now serves over 1100 clients across 6,000+ vessels, positioning itself among the top five global maritime connectivity providers. Through its flagship platform Orbyt Nexus, Orbyt offers hybrid GEO/MEO/LEO satellite and 4G/5G solutions, fully digitized bridge systems, and seamless ship-to-shore communication. Our mission is to simplify navigation, communication, and connectivity needs for global shipping from a single trusted source, delivering convenience, efficiency, and peace of mind, anytime and anywhere.

DIGITAL MARITIME SOLUTIONS

ORBYT PLUG

Auto updates & secure connection

Facilitating the smooth distribution and timely update of navigational data.

ORBYTSEA READER

Digital Technical Library (SeaReader, Whitherby Connect, IMO)

Seamless access to vital technical documents, manuals, and compliance records - fully integrated with ECDIS, available anytime, anywhere, onboard or ashore.

ORBYTNAV

Back of the Bridge Planner

High-precision navigation powered by UKHO charts, enriched with intelligent data for optimized route planning and real-time awareness.

ORBYT EMISSIONS+

All your emissions in one place

Monitor, report, and verify vessel emissions in line with MARPOL and EU regulations - automated, accurate, and audit-ready.

ORBYT ENVIRONAV

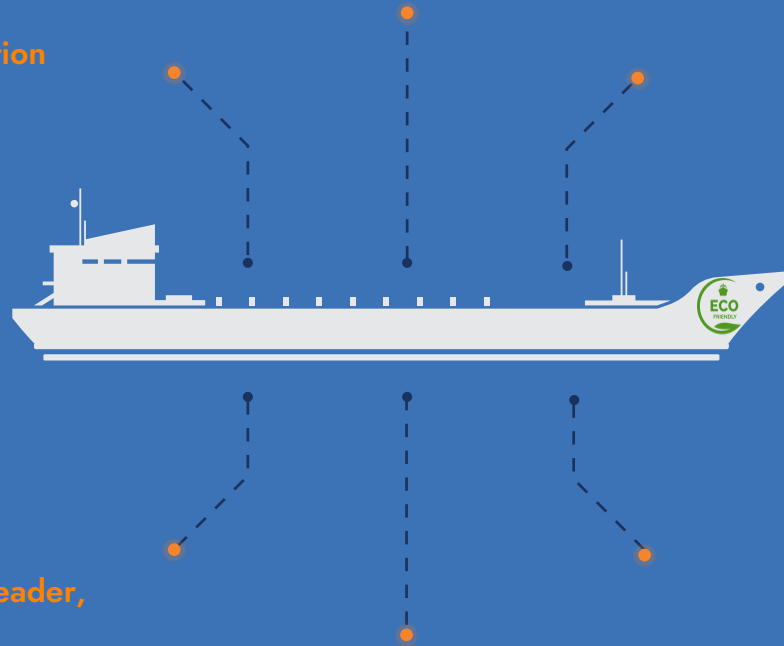

Environmental Operations Platform

Plan and track environmental operations with full visibility and compliance across international, national, and port-specific rules.

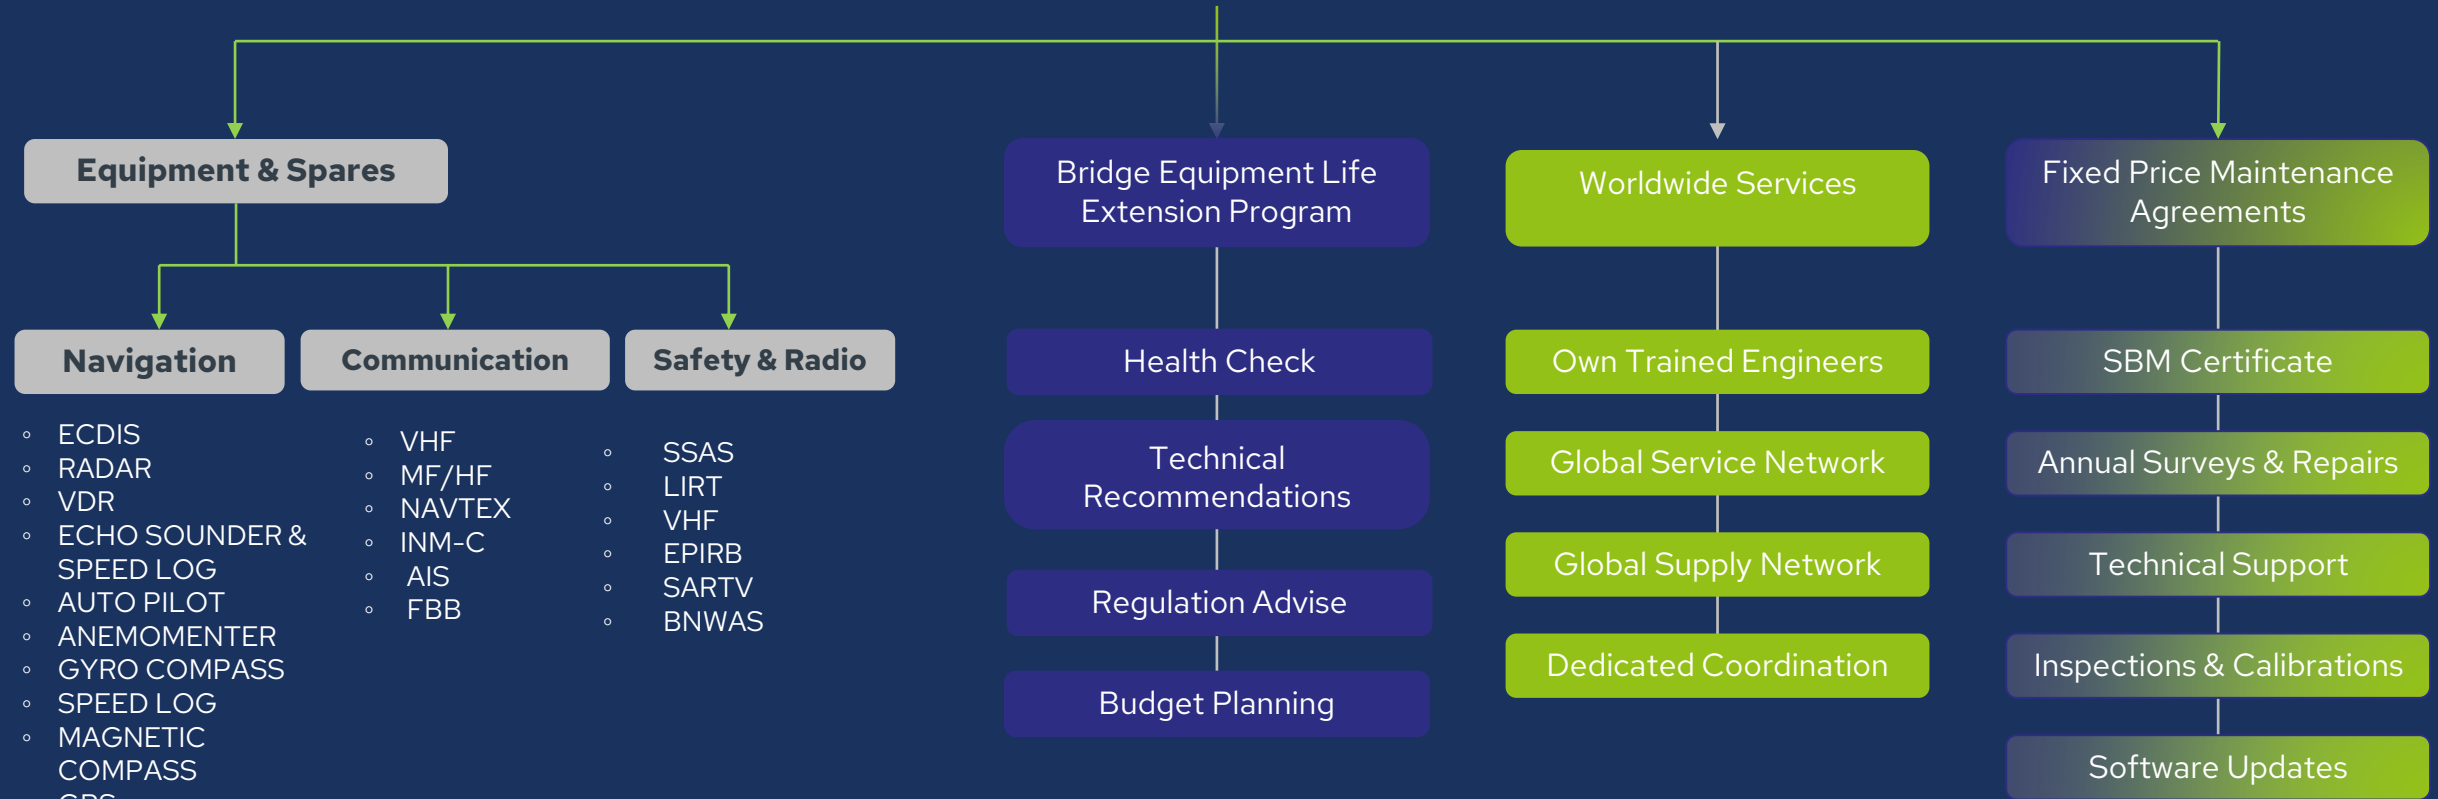

ORBYT e-LOG

Digital e-Log Books

Simplify data entry and record-keeping with user-friendly digital log books for key operational and regulatory reporting.

OCEANIX is offering a wide range of different products, services and solutions in the fields of electronic navigation equipment and maintenance contracts. Active in the sale and distribution of marine electronic products, software applications, systems, devices, ship safety and communication systems combined with a solid after sales / technical support.

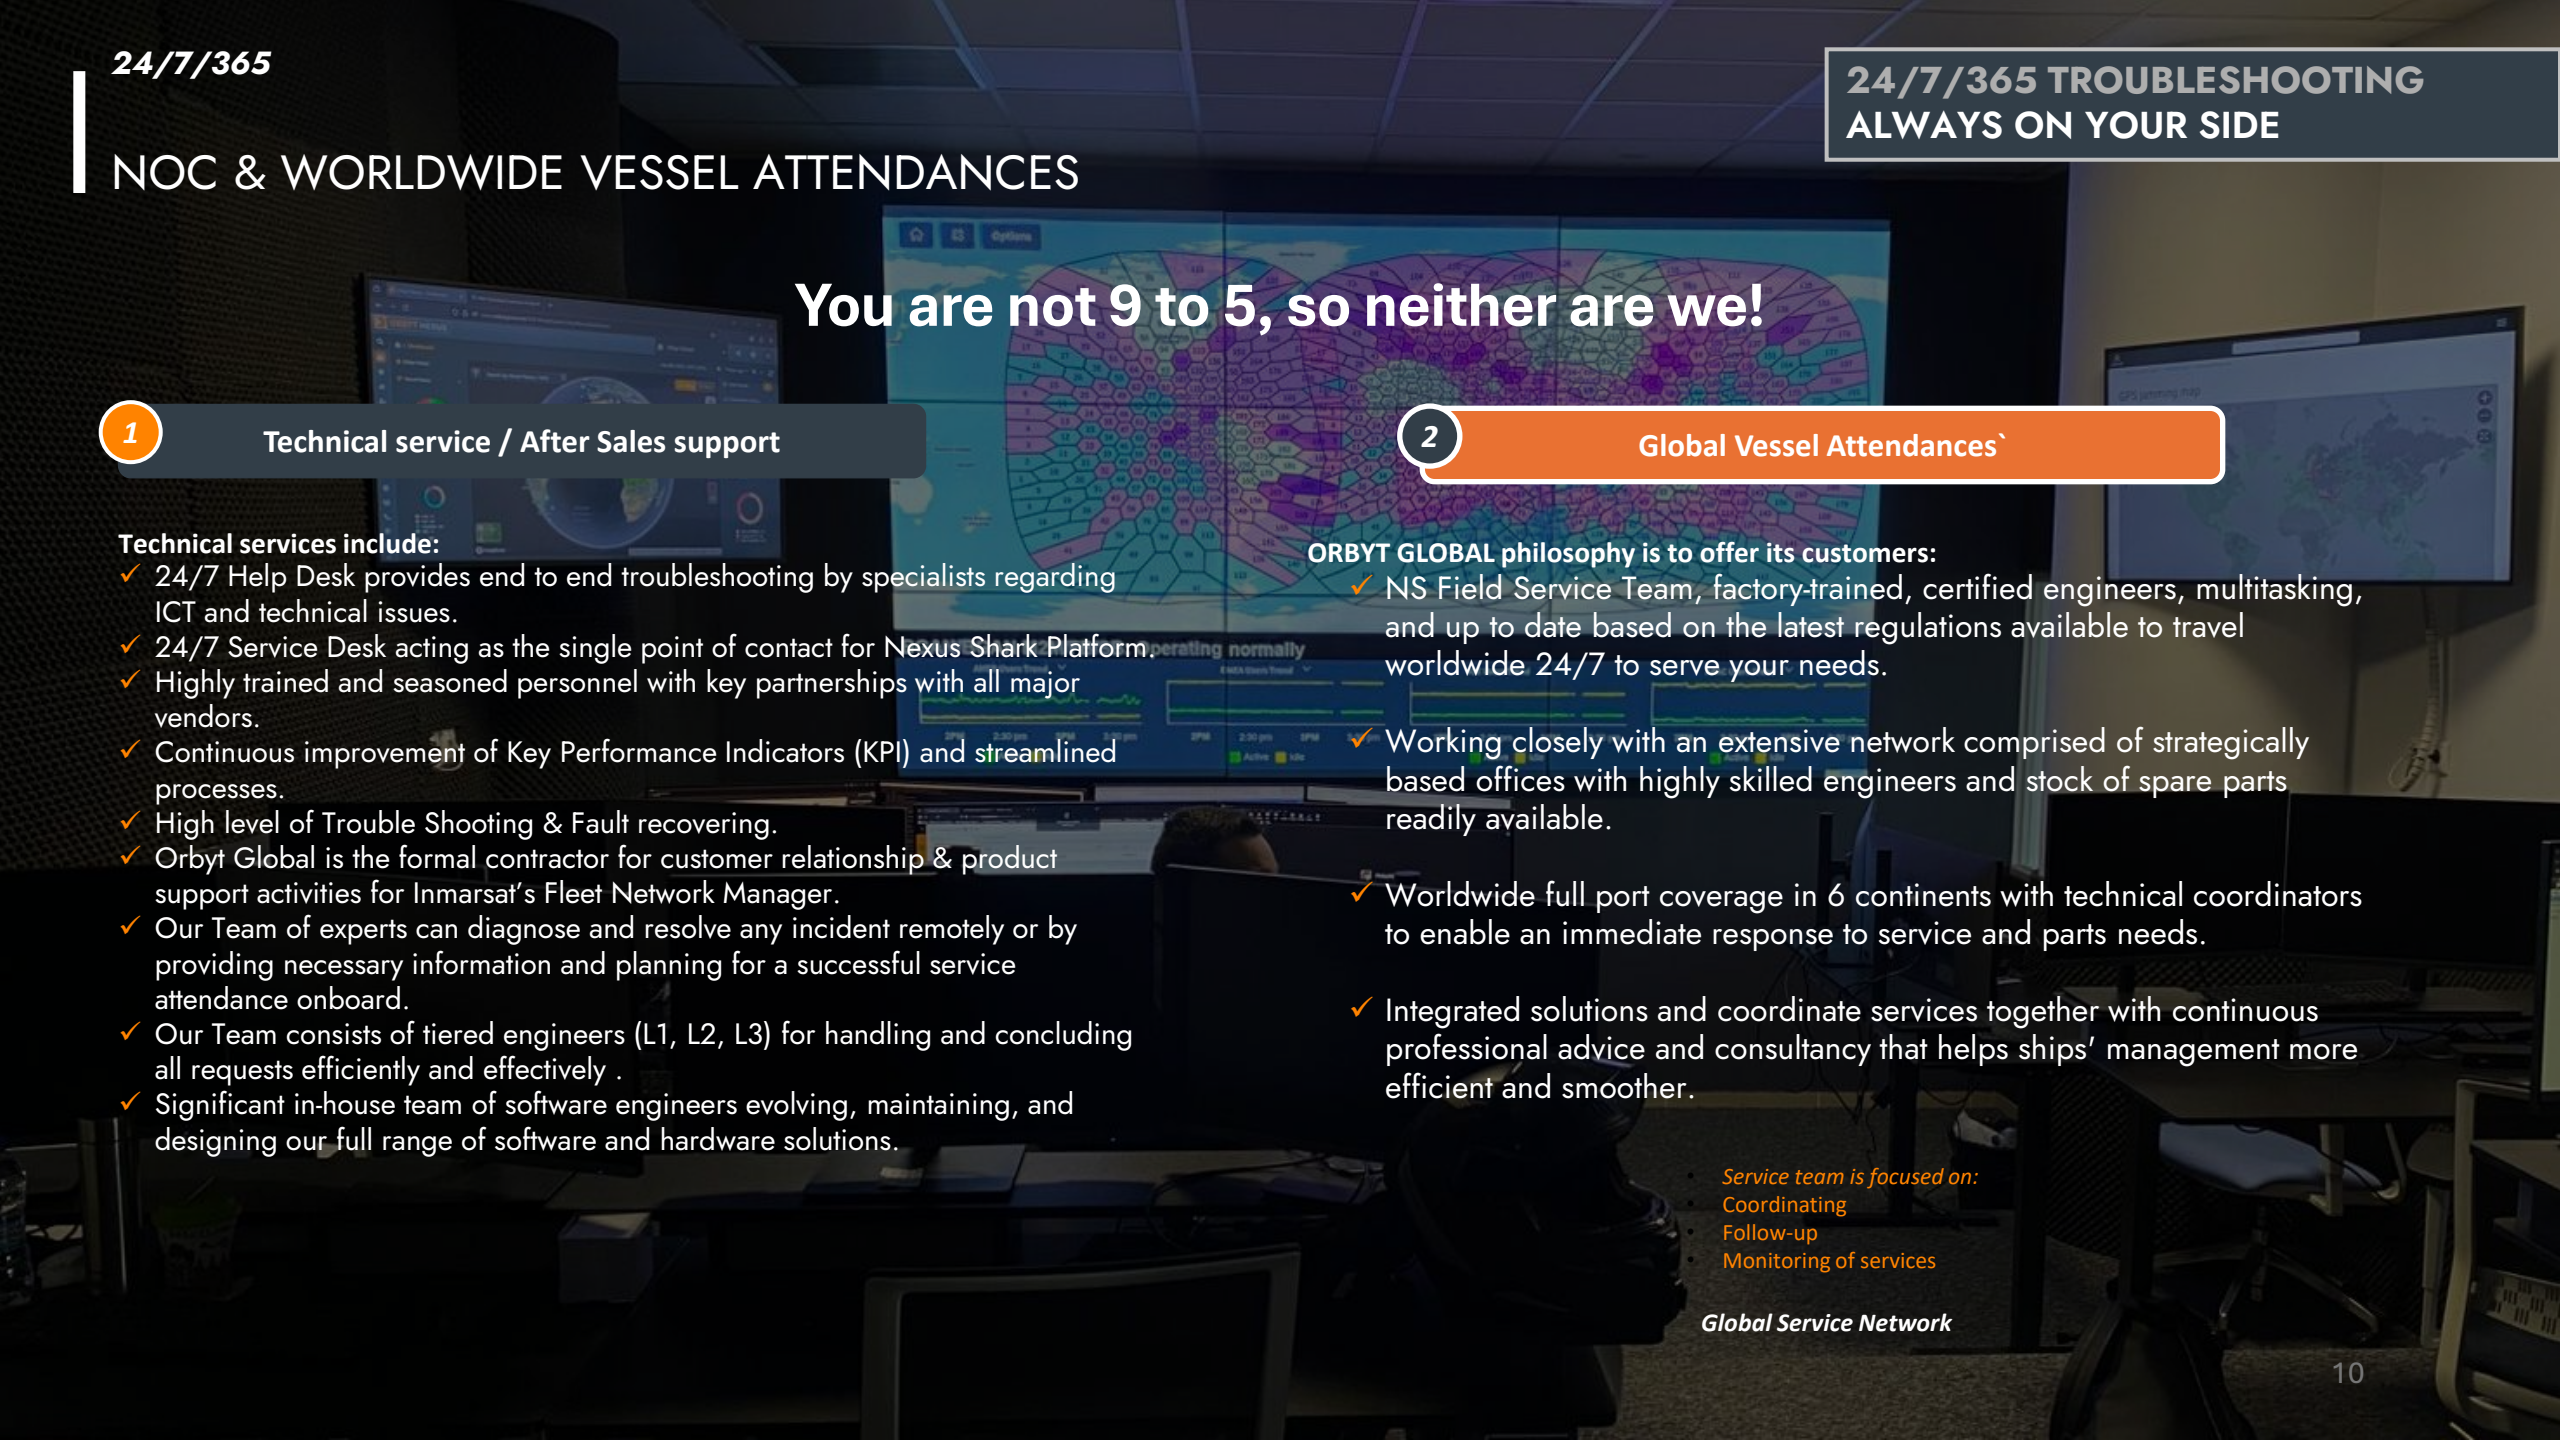

We are approved for GMDSS surveys and Annual Performance Test for VDR/SVDR according to the latest resolution of IMO MSC Circular 1222 by all major classification societies:

AUTHORISED SERVICE FOR

NOC & WORLDWIDE VESSEL ATTENDANCES

You are not 9 to 5, so neither are we!

1

Technical service / After Sales support

Technical services include:

- ✓ 24/7 Help Desk provides end to end troubleshooting by specialists regarding ICT and technical issues.
- ✓ 24/7 Service Desk acting as the single point of contact for Nexus Shark Platform.
- ✓ Highly trained and seasoned personnel with key partnerships with all major vendors.
- ✓ Continuous improvement of Key Performance Indicators (KPI) and streamlined processes.
- ✓ High level of Trouble Shooting & Fault recovering.
- ✓ Orbyt Global is the formal contractor for customer relationship & product support activities for Inmarsat's Fleet Network Manager.
- ✓ Our Team of experts can diagnose and resolve any incident remotely or by providing necessary information and planning for a successful service attendance onboard.
- ✓ Our Team consists of tiered engineers (L1, L2, L3) for handling and concluding all requests efficiently and effectively .
- ✓ Significant in-house team of software engineers evolving, maintaining, and designing our full range of software and hardware solutions.

2

Global Vessel Attendances`

ORBYT GLOBAL philosophy is to offer its customers:

- ✓ NS Field Service Team, factory-trained, certified engineers, multitasking, and up to date based on the latest regulations available to travel worldwide 24/7 to serve your needs.
- ✓ Working closely with an extensive network comprised of strategically based offices with highly skilled engineers and stock of spare parts readily available.
- ✓ Worldwide full port coverage in 6 continents with technical coordinators to enable an immediate response to service and parts needs.
- ✓ Integrated solutions and coordinate services together with continuous professional advice and consultancy that helps ships' management more efficient and smoother.

- *Service team is focused on:*
- Coordinating
- Follow-up
- Monitoring of services
